Description:

Crystal Standee transparent screen advertising player uses transparent display technology to present content on a high-brightness transparent screen while maintaining the visibility of the background scenery. Seamlessly blend advertising content with the surrounding environment, support remote real-time content playback, and respond quickly. Support multi-screen splicing function to meet the needs of larger advertising areas.

**High-definition imaging
high transparency**

**Wi-Fi, 4G and cloud
platform remote control**

**High refresh rate, smoother
visual experience**

**Lightweight and thin
fast response**

**Built-in control box
Flexible connection**

**Class VI flame retardant
high safety design**

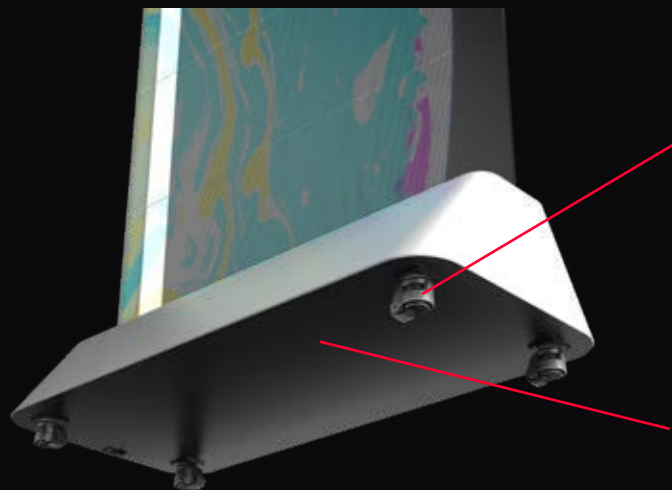

Multi-screen splicing:

Multiple screens can be randomly combined and stitched together for seamless display to meet the advertising needs of a larger area.

Specs:

Model	P5		
Module size (mm)	1000*1600	1000*1920	1000*2240
LED light	1313		
Pixel composition	R1G1B1		
Pixel spacing (mm)	5*5		
Module pixel	200*64=12800		
Pixel/m²	40000		
Brightness	2000/4000		
Permeability	95%		
Angle of view°	160		
Input voitage	AC110-240V50/60Hz		
Peak power	600W/m²		
Average power	200w/m²		
Work environment	Temperature -20-55		
	Humidity 10-90%		
Weight	1.3kg		
Thickness	2mm		
Drive mode	static state		
Control system	Nova/Colorlight		
Typical value of life	100000H		
Grayscale level	16bit		
Refresh rate	3840 Hz		

Silent wheels

High quality silent wheels with positioning function, 10mm height adjustment, no noise when moving

Built-in control box

Provides perfect 4K, streaming real-time content, flexible connection, release programs anytime and anywhere, and multi-screen splicing without configuration

Ultra-thin and highly transparent display
